

4591 Deadlatch Paddle

The 4591 Deadlatch Paddle is an ergonomically-friendly alternative to a knob or lever handle. Operate with a simple push or pull.

Function

An alternative to knob or lever handles. Makes opening a latched door as natural as opening an unlatched one – just push or pull in the direction the door swings. Available for any Adams Rite 4300, 4500 or 4900 Series Deadlatch, MS+1890 Deadlock/Latch, or 2190/2290 Interconnected Deadbolt/Deadlatch.

Operation

Available in four configurations: push to left, push to right, pull to left, and pull to right. Can be reconfigured to any mode in the field. Dogging not to be installed in pull configuration.
