

## 5800 Family of Wireless Remote Controls

Honeywell's 5800 family of wireless remotes gives your customers personalized control of their security system, the added convenience of controlling lights, appliances and garage doors and the security of knowing that emergency help will arrive with the press of a single button.

From the basic 5804-2 two-button remote to the advanced 5804BDV bi-directional device that actually speaks system status in plain English, the 5800 family of

wireless remotes is easy-to-use personal protection that your customers can take anywhere they go. The wireless remotes make Honeywell systems much easier to operate and provide an extra level of convenience, comfort and peace of mind your customers will really appreciate. Our wide array of wireless remotes provide dealers with the flexibility they need for any wireless application.
