

STI CCTV HOUSINGS

STI-7000K
STI-7100K

STI-9716

PRODUCT OVERVIEW

Here's a way to protect your CCTV camera from vandalism and tampering. The additions to our Stopper® Line of products are available in aluminum or diecast aluminum. Models are available in different versions. One version consists of the sturdy housing unit, another version includes housing, heater, blower and sun shield. The sun shield can reduce internal temperature by 4°F (2°C). All units include mounting bracket.

The Universal Pole Mount Bracket's stainless steel bands are adjustable allowing it to be mounted to 2 1/4 inch to 4 1/2 inch diameter poles. Multiple hole patterns allow use with various camera mounts. Can be easily modified for additional pole mounting applications.

KEY FEATURES
