AD-2000F

Fire Spec Auto Dialers

The AD-2000F dialer features busy-line and no-answer detection to ensure prompt transmission of up to 4 prerecorded messages delivered sequentially to as many as 8 standard telephones, cellular phones, voice and/or numeric pagers. Messages to both local and long-distance calls can be transmitted. When activated, the dialer instantly begins calling the numbers in sequence, delivering each message 1 to 3 times in a row, in accordance with the preselected number of dialing attempts.

The AD-2000F is extensively programmable, offering personalized customization to fulfill virtually any residential or business requirement. Plain-English prompts walk the user through the process in a timely manner.

Installation and hookup are quick and easy, whether installed in conjunction with normally open, normally closed dry contact or voltage activation sensors. The unit can also function as a stand-alone device, by simple connection to an ordinary telephone jack.

Applications

- Security/burglar/fire alarm notification
- Equipment malfunction notification
- Environmental warning notification
- High/Low Temperature threshold notification

Features

- A Full Featured Security System Ideal for fire alarm control panel notification requirements- 24VDC Operation
- 4 Separate voice message alarm zones
- Calls up to 8 telephones, cell phones or pagers
- Built-In Line Seizure
- Remote Turn Off feature allows termination of activated channel
- EEPROM Memory retains programming despite power loss
- Listen-In verification and 2 way communication
- Universal Dial Tone. Works with any analog phone system.
- Built-In Auxiliary Output to drive external siren, strobe or relay
- NOTE: Power Supply Sold Separately

Specifications

Power source: 24 VDC

Current (OPERATE mode - standby): 28mA typical.

Current (OPERATE mode - dialing): 100mA max.

Activation:

1) N.C. Activation: dialer activates when an "open" is detected
2) N.O. Activation: dialer activates when a "close" is detected
3) Voltage Activation:
    N.C. (applied voltage: Min. +5VDC, Max. +28VDC)
    N.O. (loss of continuous voltage: Min. 0VDC, Max. 0.25VDC)

Max. Digits for outgoing numbers: 50

Operating temperature range: -18 to 55 C (0 to 130 F)

Dimensions (inches): 6x4x1.5in

Weight (ounces): 10 oz

Mounting: Wall or Flat Surface

Case Material: ABS

Color: White

Warranty: 1 Year
