Security systems dealers rely on USP for the most innovative products in the security industry. For your next installation, be sure to specify USP products.

## AVD-2005

4-Channel Auto Voice Dialer with Low Battery Notification

The AVD-2005 is one of most comprehensive automatic voice security dialer available. Representing an exciting new level of achievement, the AVD-2005 combines technologically advanced features, ease of programming and reliable operation in a compact, unobtrusive dialer completely compatible with any security alarm system.

The AVD-2005 is capable of monitoring low power conditions. A bank of four switches are easily accessible on the back panel to select which channels to monitor. When Incoming power drops below 12vDc, the selected channels will dial the pre-programmed numbers and sends "BEEP" notification of the low power condition.

The AVD-2005 dialer features, busy-line and no-answer detection to ensure prompt transmission of up to 4 prerecorded messages delivered sequentially to as many as 8 standard telephones or cellular phone. Messages to When activated, the dialer instantly begins calling the numbers in sequence, delivering each message 1 to 3 times in a row, in accordance with the preselected number of dialing attempts.

## Applications

- Security/burglar/fire alarm notification
- Equipment malfunction notification
- Environmental warning notification
- High/Low Temperature threshold notification

## Features

- Automatic Low Battery Alert, overriding beep during outgoing message notifies of low battery
- A Full Featured Security System with 4 Independent Voice Message Dialer Channels
- 4 Outgoing Messages, Programmable in Any Language, allow you to monitor up to four other conditions (in addition to power loss)
- Automatically Calls up to 8 telephones or cell phones
- Listen-In verification & 2 way communication
- Built-in Line Seizure
- EEPROM Memory retains program despite power loss
- Remote reset feature allows termination of activated channel
- NOTE: Power Supply Sold Separately

## Specifications

Power source: 9-18VDC

Current (OPERATE mode - standby): 28mA typical.

Current (OPERATE mode - dialing): 100mA max.

Activation:

- 1) N.C. Activation: dialer activates when an "open" is detected
- 2) N.O. Activation: dialer activates when a "close" is detected
- 3) Voltage Activation:  
N.C. (applied voltage: Min. +5VDC, Max. +28VDC)  
N.O. (loss of continuous voltage: Min. 0VDC, Max. 0.25VDC)

Max. Digits for outgoing numbers: 50

Operating temperature range: -18 to 55 C (0 to 130 F)

Dimensions (inches): 6x4x1.5in

Weight (ounces): 12.25oz

Mounting: Wall or Flat Surface

Case Material: ABS

Color: White

Warranty: 1 Year
