# Safety Information

This FCC Class-B compliant digital device complies with the Interference-Causing Equipment Regulations of Canada.

## FCC Disclaimers

This device complies with Section 15 of the FCC listing. The operation procedures must meet the following conditions: (1) this device must not cause any damaging interference; and (2) this device must accept any received interference, including any unpredictable interference that may possibly occur.

Dear users,

This device has passed the Class B digital device regulations and complies with Section 15 of the FCC listing; these are intended to provide reasonable warranty against damaging interference for home use. This device will produce, use and emit radio frequency energy; therefore, installation or use without following the instructions given may cause damaging interference to radio communication. Nonetheless, it is not possible to state with certainty that interference will occur from specific installations. If this device has caused damaging interference to radio or TV signals (simply turn the device on and off to check if such interference is caused by the device), we recommend that you fix the interference using the following methods:

- Readjust the direction or location of the antenna.
- Increase the distance between this device and the receiver.
- Use a different power source other than the power source used by the receiver.
- Consult your local dealer or an experienced radio/TV technician.

**Warning:**

Making changes or modifications to the device without the permission from an authorized dealer may void the warranty of this device.

## WEEE

### Information for users applicable in European Union countries

The symbol on the product or its packaging signifies that this product has to be disposed separately from ordinary household wastes at its end of life. Please kindly be aware that this is your responsibility to dispose electronic equipment at recycling centers so as to help conserve natural resources. Each country in the European Union should have its collection centers for electrical and electronic equipment recycling. For information about your recycling drop off area, please contact your local related electrical and electronic equipment waste management authority or the retailer where you bought the product.

## Important Safety Instruction

1. Read these instructions thoroughly and keep this user manual for future use.
2. Do not use the product near water. Never spill liquid of any kind of the products. Clean LED monitor when power off. Never clean it with liquid cleanser or liquefier. Better use clean wet cloth carefully.
3. Do not place the product on an unstable cart, stand or table. Doing so may cause the product to fall, which can seriously damage it.
4. To ensure reliable operation, never block these ventilation slots by placing the product on a bed, rug or similar surface; this product should never be placed near or over a radiator or heat register; or installed in any enclosure that prevents proper ventilation.
5. Do not place any object on the adapter. Do not place this product where persons could walk on the adapter.
6. Never push objects of any kind through the ventilation slots at the back of the product. To do so could risk fire or electronic shock.
7. Do not attempt to service this product by yourself. Opening or removing covers may expose you to dangerous voltage that could cause fire or electronic shock. Refer all servicing needs to authorized service personnel.
8. Unplug this product from the wall outlet and contact authorized service personnel under the following conditions:
  - a. When the adapter or plug is damaged or frayed.
  - b. If a liquid has been spilled into or on the product.
  - c. If the product has been rained or spilled by water.
  - d. If the product has been dropped or the cabinet has been damaged.
  - e. If the product does not operate normally when operating instructions are followed, and product shows to be maintained.

## Special Notice

Only under normal condition can the quality of LED products be assured during operation. Normal condition as following:
