

EXIT WATCH™

COVERT DOOR FRAME, HIGH RESOLUTION COLOR CAMERAS

FEATURES

- VANDAL RESISTANT ALUMINUM CASING. CLEAR ALUMINUM OR DARK BRONZE
- ADVANCED HIGH RESOLUTION - 550 TVL CCD BOARD CAMERA
- 1 LUX @ F:2/50 IRE
- 12V REGULATED DC POWER SUPPLY AND MOUNTING HARDWARE INCLUDED
- RCA & BNC PLUG & PLAY CONNECTORS INCLUDED

APPLICATION

Exit Watch covert door frame cameras are installed on the door frame of the exit door, which is the ideal location to capture close-up and clear video images. To all appearances, the unit is a typical height strip you would see anywhere. **Perfect for use in banks, restaurants, filling stations and other retail applications.**

DESCRIPTION

The high quality optical lens and ultra-small high resolution CCD camera makes Exit Watch one of the most advanced units available. The heavy duty, dark brown or silver steel case and back-screened multi-color faceplate are designed to keep the units looking new by protecting it in high traffic areas.

The adjustable/lockable swivel bracket mounts directly to the door frame, enabling Exit Watch to be precisely adjusted for single or double door applications. Exit Watch provides clear and distinct images to law enforcement agencies for identification needs.

The compact EX-7 (6.5" long) can be mounted on either the door frame or over the door (horizontally).

Exit Watch kit includes mounting hardware and 12V DC regulated plug-in power transformer.
