Subject: Exit Trim Battery Wire Extension
Models: Alarm Lock Exit Trim Devices

Alarm Lock Exit Trim models prepped for Sargent panic devices are shipped with a supplemental battery extension wire. This wire extension connects between the wiring harness that runs from the ET panic device and the battery pack. This wire extension is needed with this particular lock prep because the battery pack is mounted separately, underneath the panic device.

If you wish to purchase an Exit Trim battery extension wire, call Customer Service at 800-252-5625 and ask for part number **W888**, "**Exit Trim Wire Extension Assy**".
