

POWER SUPPLIES AND REGULATORS

6973
Non-regulated Plug-In Power Supply
9VDC 50 mA Output
U.L. Listed E152985(S)

2933
Regulated 24V - 5V
DC Converter
@350 mA Output

8065
AC/DC Adaptor
Regulated 12V DC 500 mA
U.L. Listed
Screw Terminal Connections

2935T
Regulated Power Supply
+5V @ 700 mA

2930
Regulated 12V - 5V
DC-DC Converter
@350 mA Output

Designed to accommodate the new lower power consumption electronics the GRI DC to DC regulated power supplies, will maintain a set +5V DC output at 350 mA from a 12 V DC supply in the model 2930 or from a 24V DC supply in the model 2933.

For applications requiring a plug in AC to DC conversion the model 2935T will convert and step down 110V AC to a +5V DC regulated output at 700 mA.

Standard applications capable of utilizing a non-regulated plug-in AC to DC power supply can best use the model 6973 to convert 110V AC to a non-regulated 9V DC at 50 mA output. For use with PRM-1 Programmable Relay Module.

The G.R.I. 8065 is a Class II U.L. 12V DC Regulated 500 mA Power Supply with Red LED indicator for power supervision, and built in cable strain relief. It comes with a mounting tab and mounting screw. Recommended for use with the 189/289 G.R.I. Series Pool Alarm.
