

## DITEK iBNC INSTALLATION INSTRUCTIONS

**APPLICATION:** This device is intended for indoor or outdoor use and to connect in line with the coaxial cable.

1. Check the cable signal before and after the installation of the DTK-iBNC to insure proper hook-up and no signal distortion.
2. Disconnect the cable from the camera.
3. Using the patch cord supplied, connect the equipment (output) side of the iBNC to the camera input.
4. Reconnect the input cable to the iBNC input.
5. A separate ground is not required for the DTK-iBNC.

**NOTE:** The cable shielding must be grounded at the point it enters the building.

6. For further information or technical support please call 1-888-472-6100.
