

## IH101 Flush Steel Mounting Box - vertical mounting

**IH101** Flush Steel Backbox

**IH102** Flush Steel Mounting Ring

### Dimensions

<b>IH101:</b>	(wall opening required) Height: 5.63" (144mm) Width: 4.00" (102mm) Depth: 1.75" (45mm)
<b>IH102:</b>	(wall opening required) Height: 5.40" (138mm) Width: 4.10" (105mm) Depth: 0.50" (13mm)

### IH101 Flush Steel Backbox & IH102 Flush Steel Mounting Ring

The Alpha Communications® models **IH101** and **IH102** are flush steel mounting boxes and rings, made of heavy gauge steel, in a galvanized finish. They are our most popular mounting accessories, and are used with a variety of flush mount intercom remote and master stations.

The **IH101** is a fully enclosed box, designed to be nailed or screwed to a mounting stud, or set into concrete or masonry.

Convenient knockouts on the top and bottom of the box, make it easy to attach to standard electrical EMT box connectors.

The **IH102** is an open design mounting ring, designed to be used in existing sheetrock or panelled walls, where the unit cannot be mounted onto the stud. As a lower cost option on new construction, it can also be nailed or screwed to a mounting stud, before the sheetrock is applied.

### Architects' And Engineers' Specifications

The flush back box/ring/housing shall be Alpha Communications® / TekTone model **IH101** or **IH102** or approved equal. It shall be made of heavy gauge steel, in a galvanized finish. The **IH101** shall contain convenient electrical knockouts on the top and the bottom of the box, to attach to standard electrical EMT box connectors.

The **IH102** shall be open in the back to allow for equipment clearance and wiring if needed.

Contractor shall observe all local and national electrical codes.
