### IH106N Flush Mounting Box for Intercom Stations

Alpha Communications® / TekTone model **IH106N** is a flush mounting box, made of heavy gauge steel, in a galvanized finish.

It has been used with a variety of nurse-call intercom remote stations, including those in the 'IR150N' series such as **IR150N**, **IR151N**, **IR152N**, **IR155N** and **IR157N** (and others).

Currently, it is used mostly with the **IR150N** remote intercom stations, with the **NC150R** Area-Of-Refuge (Area of Rescue Assistance) emergency call system(s).

Convenient knockouts on the top and bottom of the box, make it easy to attach to standard electrical EMT box connectors.

When turned vertically the **IH106N** can also be used with certain intercom stations, such as the **ES512/03** or similar.

### Architects' And Engineers' Specifications

The flush back box(es) shall be Alpha Communications®/TekTone model **IH106N** or approved equal. Box(es) shall be made of heavy gauge steel, in a galvanized finish. Box(es) shall contain convenient electrical knockouts on the top and the bottom, to attach to standard electrical EMT box connectors.

Contractor shall observe all local and national electrical and building codes.
