Model **IR155B** shall include solid-state call placed and intercom in-use indicators a 6-foot-long washable TPU plastic pull cord for call placement, and a 2.50" speaker / microphone with voice response.

All station components shall be mounted on an attractive flame retardant (UL® 94V-0) type fog white plastic face plate. Connections shall be plug-in be plug-in type.

The station shall utilize a 2.50" x 2.50" speaker / microphone for accurate voice reproduction.

Contractor shall observe all local and national electrical and building codes.

The **IR155B** shall be UL® Listed.

IR155B Single Pull-Cord Resident Station

The Alpha Communications® / TekTone **IR155B** Emergency Resident Station provides for efficient use of the nursing staff by permitting fast and reliable communication between nurse and resident.

Calling the nurse is accomplished by pulling the 6-foot long nylon pull cord mounted on the station. Call-placed assurance and intercom operation is indicated by reliable solid-state LED indicators.

The speaker/microphone is sensitive enough to assure clear conversations even with weak residents. Calls are cancelled (only at the point of origin) by simply sliding the RESET switch to the 'LEFT' position. The faceplate is constructed of flame-retardant (UL® 94V-0) plastic

Features

- Sensitive speaker/microphone
- Intercom indicator lights when room is being monitored
- Attractive (UL® 94V-0) plastic faceplate
- Call-placed LED indicator
- In-use indicator when intercom audio path is active
- Built-in 6 foot washable TPU plastic pull cord
