KBD-RACK

BOSCH
FOR RACK MOUNTING INTUIKEY SERIES KEYBOARDS (KBD-UNIVERSAL, KBD-DIGITAL, AND KBD-MUX)

1 UNPACKING

Check for the following items:

• Mounting Panel (1)

• Accessory Kit:

  • 6-18 x 7/8-inch thread forming screw (4)

  • #6 external tooth lockwasher (4)
 • 10-32 x 5/8-inch machine screw (4)

• 10-32 captured nut fastener (4)

Tools Required (**Not Included**)
Small and medium sized Phillips screwdrivers.

2   INSTALLATION

1. Remove the four (4) machine screws located along the back edge of the keyboard bottom as shown in the figure at right.

2. Position the mounting panel over the keyboard. Align the screw holes on the back edge of the keyboard bottom with the mounting holes corresponding to the desired keyboard orientation.

3. Attach the keyboard to the mounting panel with the four (4) 6-18 x 7/8-inch thread forming screws and lockwashers as shown in the respective figure.

#6 external tooth
lockwasher

Horizontal and Vertical Positions

4. Plug the keyboard cord into the modular jack connection located at the back edge of the keyboard bottom.

5. Align the panel mounting holes with those on a rack at the desired mounting location. Secure the assembly with the four (4) 10-32 machine screws.
NOTE: If the rack does not have threaded mounting holes, clip the four (4) 10-32 captured nut fasteners over the corresponding mounting hole locations.
