# DTK-MB Series with Snap Track Channel

Quick-Install Mounting System for DTK-2MHLP and DTK-2MHTP

The DTK-MB Series, with Snap-Track, is the mounting base system for DTK-2MHLP surge modules. This mounting system allows the installer to protect multiple circuits terminating at the same point . Perfect for alarm panels, fire control systems, or other low voltage communications circuits. The DTK-MB makes for a quick and easy wire management solution.
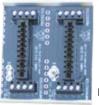

DTK-5MB

DTK-4MB

Features
• Available in arrays of 1, 2, 3, 4 or 5
• Straight-in/straight-out terminal connections
• Single point ground for ease of installation
• Fast installation saves time

DTK-3MB

Benefits
• Scalable up to 10 pairs of protection
• Protect multiple line voltages in one cabinet
• Up to 10 data, telco or other communication pairs protected with only one ground connection and only one backplane mount, simplifying installation.

Ordering Guide
• Single unit: DTK-MB10
• With surge module:
  DTK-2MHLPxxBWB (WB = With Base = DTK-MB10)
• Horizontal wiring across base: DTK-MBV
• Multiple bases: DTK-#MB - # indicates the array number of modular bases desired (2-5)
