

E-SERIES - EMBEDDED RECORDERS

OE3-E480

OE3-E240

OE3-E120

DESCRIPTION

OpenEye's E-Series DVR is a powerful and affordable video management solution designed for easy installation and operation. The OpenEye E-Series DVR comes ready for fast and seamless integration within your existing IT infrastructure and offers quick search, setup, and backup features.

The E-Series DVR offers unparalleled stability, security and ease of use in a 2U chassis. With quick setup options and a no-hassle instant backup feature on the front panel, the E-Series DVR offers you a reliable, easy to operate and administer security solution. Remote management of the E-Series has never been simpler. Using the RADIUS remote software, multiple remote users can view, search and backup data for off-site video storage as well as configure the DVR and perform remote software updates. Built with the quality and expertise users have come to expect from OpenEye, the E-Series is up to the task for your next surveillance installation.
