

Nextiva

Wireless Video Kits

Nextiva™ Wireless Video Kits are cost-effective, practical solution sets that help you leverage the power of digital wireless video in your surveillance applications.

Nextiva Wireless Video Kits are:

Easy to select. Each kit is designed to meet a specific operational challenge.

Comprehensive. Each kit includes wireless devices with integrated radios, encoders, antennae, and all required equipment to operate the units: mounting brackets, cabling, and power supplies.

Simple to configure and deploy. Installation and user guides are supplied with the kit.

An excellent value. Nextiva Wireless Video Kits are less expensive than parts purchased separately and easier to stock and ship because only one part number is needed.

And Nextiva Wireless Video Kits are from Verint®, the leader in networked video solutions worldwide.

Setting the Standard for Innovation and Value

Nextiva Wireless Video Kits set the standard for innovation and value. These solutions integrate digital radios, encoders/decoders, and antennae into small, NEMA-rated enclosures for secure, reliable operation in real-world applications.

All Nextiva Wireless Video Kits feature:

- Video encoding and wireless transmission over license-free 5 GHz bands
- Built-in antennae
- MPEG-4-based video with performance up to 4CIF/30 fps
- SSL-based authentication and AES encryption for secure digital video transmission
- Ethernet connection on every device
- Compact, weatherproof NEMA enclosures for highly reliable outdoor use
- RS-422/485 serial ports to support motorized domes and cameras

Nextiva Wireless Video Kits are designed for high availability, easy interoperability with IT infrastructure and standard video equipment, and excellent performance.

In Every SmartLink Kit

- 1 pair of Nextiva S4100 edge devices (5 GHz), including power/video/control cables and mounting brackets
- 2 24V AC power supplies
- Documentation CD

In Every SmartAccess Kit

- 3-4 Nextiva S4200 edge devices (5 GHz), including power/video/control cables and mounting brackets
- 3-4 24V AC power supplies
- 1 Nextiva S4300 edge device (5 GHz), including PoE injector, weatherproof 25m cable (RJ-45), and mounting brackets
- 3-4 Nextiva S1970e-R decoders, including universal power supply
- Documentation CD
