STI Type 4X Stopper® Dome

STI-1229

C (UL) US	C (UL) US
Type 4X	HAZARD **Type 4X**
ADA Compliant	**ADA** Compliant
STI-1229	**STI-1229-HAZ**

FEATURES

· Advanced features to protect strobe signal units of the newest generation of fire protection systems.

· Type 4X rating (STI-1229 series only).

· Includes appliance mounting plate which eliminates the need for an electrical outlet box.

· Tested to UL 50 Standards.

· Tough matching polycarbonate backbox included for surface mounting with conduit.

· Gasket included for indoor/outdoor applications.

· Polycarbonate is UV-stabilized.

· Typical working properties of polycarbonate are -40° to 250°F (-40° to 121°C).

· See chart on other side for light and sound loss information.

· CSFM letter available authorizing local AHJ's authority to grant permission for use.

· UL/cUL ambient rating 32° to 120°F (0° to 49°C) indoors or outdoors.

· Easy access for service.

· Three year guarantee against breakage of polycarbonate in normal use (one year on electro mechanical and electronic components).

Hazardous Features

· Dust tight (Class II Group F and G Div. 2).

· All Class III locations.
PRODUCT OVERVIEW

This super tough cover is designed to provide maximum protection against physical damage (both accidental and intentional), dust, grime and damage from severe environments indoors and out. The STI-1229 is for smaller strobe units of the new generation of fire signal appliances. It is a weatherproof cover for surface mount applications which can be used in wet or hose down areas (such as kitchens, cafeterias, meat packaging plants, showers, outdoors, etc.).

HOW IT WORKS

Both the cover and circular backbox are molded from clear, thick polycarbonate material that is UV-stabilized against discoloration. The STI-1229 incorporates an appliance mounting plate that eliminates the need for an electrical outlet box, as well as a special gasket for Type 4X applications. In extremely frigid conditions, use the STI-1229HTR Heated Enclosure. Also available is a similar cover with slots (STI-1219) for surface mount applications of horn signal units. The STI-1219 is not Type 4X Rated.

⚠ **WARNING:** In hazardous areas all sources of power must be shutdown before accessing cover per NEC.

APPROVALS & WARRANTY

TESTING

It has been tested and approved or listed by:
· UL and cUL, Type 4X, and UL 50 File S7025
· UL and cUL Hazardous File E228169
· For hazardous applications in Canada, to meet cUL, your strobe must be ULC Listed.UL and cUL, Type 4X, and UL 50 File S7025
WARRANTY

Three year guarantee against breakage of polycarbonate in normal use (one year on electro mechanical and electronic components).
