

TUXEDO TOUCH™

RESIDENTIAL COLOR GRAPHIC VOICE
TOUCHSCREEN SECURITY KEYPAD
AND HOME CONTROLLER WITH
INTEGRATED WI-FI®

Honeywell's Tuxedo Touch is a 7", high-resolution graphic touchscreen that functions as an integrated security system, home controller, camera viewer and digital picture frame in one. It is a cost-effective way to capture new markets by seamlessly integrating on-site security with cameras and Z-Wave® enabled thermostats, lights, locks and shades.

A built-in web server lets end-users control Tuxedo Touch anywhere in their home and view live video on up to four local cameras per screen on an iPhone®, iPad®, Android™, BlackBerry®, Internet TV or any compatible wireless mobile device.* Use either Wi-Fi or Ethernet to connect to the premises LAN.

Whether controlling the security system or other functions within the home, the large graphic icons—which also match

the Honeywell Total Connect™ Remote Services interface—simplify operation. Homeowners can control their security system, lights, locks and thermostats, and receive event-driven alerts remotely with Honeywell Total Connect—a great RMR opportunity. They can also view live look-in video and receive video notifications.

A digital picture frame feature can be managed by end-users with the simple insertion of an SD card—letting them create cinema-quality slideshows right at the Tuxedo Touch display. A choice of white or silver/black blend with any décor.

Tuxedo Touch is available in English, French Canadian and Spanish language options, with voice annunciation of alarm status (English only).

FEATURES

- 7" color widescreen display
- 800 x 480 resolution TFT display with 16 million colors
- Centralized control of security system, video cameras, Z-Wave enabled thermostats, lights, locks and more from your Tuxedo Touch
- Use either Wi-Fi or Ethernet to connect to the premises LAN
- View up to four IP cameras at once on the Tuxedo Touch display
- Built-in web server allows for local control of your Tuxedo Touch system through any Wi-Fi enabled device (smartphone, iPad, iPhone, PC, Internet TV)
- Intuitive, easy to use interface with large icons and menu driven navigation
- Fully compatible with Honeywell Total Connect
- Icons match Honeywell Total Connect interface to help up-sell remote services
- Z-Wave controller built-in
- Supports up to 232 Z-Wave devices
- Most Z-Wave enabled thermostats, locks, lights and shades are compatible (see compatibility charts)
- Manage energy costs with customized scenes that can control Z-Wave enabled thermostats and lights based on system events or time and day (up to 10 scenes)
- View your local weather right on the keypad
- Customizable displays:
 - Dealer logo and company information can be customized on the homescreen
 - Digital picture frame slideshow adds around the clock end-user value
 - Video player creates digital billboard or training vehicle for your business needs
- Sunrise/Sunset — Scenes automatically update based on sunrise and sunset times
- RIS support — Z-Wave devices can activate by triggering 5800 Series zones/devices
- Voice annunciation of the type and location of alarm so end-users can act quickly in an emergency (English only)
- Three different languages can be displayed (English, French Canadian and Spanish)
- Family message center lets users record and playback messages
- Available in two colors (white and silver)
- Embedded training videos inside the keypad
 - Tuxedo Touch sales video
 - Programming Z-Wave device into Tuxedo Touch training video
 - Programming Z-Wave scenes in Tuxedo Touch
 - How to use web server for local Wi-Fi enabled device control training video
 - How to customize homescreen for dealer, digital picture frame and video viewer training video
 - How to install and program IP cameras training video
